

MISSIONARY DISTRICT OF PORTO RICO
OFFICE OF THE BISHOP

P. O. BOX 1118

SAN JUAN, P. R.

April 16th 1924.

My dear Bishop:

Am wondering how the well has turned out and what the success has been in the way of a water supply. Hope it adds greatly to your comfort.

Am in correspondence with an altar guild in the U.S. and they give me lineens from time to time for the various altars. I note yours is 6'7" long by 32", in front of retable. Will give them these dimensions also so they can make a set of lineens for you when convenient.

Am sailing on Friday night for St Croix and will return on Monday the 28th. Will have to go to Fajardo the week following my return and shall hope to get to Ponce during the first week in May or soon after.

How is the department of missions progressing? Give my warmest regards to Mrs Ferrando, and to the people at Quebrada Lirion. Looking forward to seeing you soon, and with best wishes I am, ever affectionately,
yours, etc.
