San Juan, P.R.

Dear Bishop Colmore:

I received your letter dated July 2, and have taken some time in the study of the resolutions included in your letter. I am sorry not to be able to send you the forms, but I need some other data in order to prepare them.

In the first place, the resolution adopted by the National Council speaks of two properties, one called Veitia, in Quebrada Limon, measuring 83 acres, and the other 43 acres in the same barrio, this last one being the property bought by "documento privado." Yet, the fincas whose descriptions I have appear to be situated in barrio Marueño, in Ponce, and one measures 13 cuerdas, while the other measured 60 cuerdas. You will readily see that it is impossible to identify said properties. Moreover, I do not think you ever gave me the description of the parcel acquired by "documento privado", so I find it impossible to describe it. I do not think nevertheless, that the resolution of your National Council is so important, since all we need is the resolution of the Board of Trustees. That is, if we can leave out entirely the resolution of the National Council and make or prepare the resolution of the Board of Trustees without reference to the former, then we will be able to draw out said resolution, but if we have to copy the resolution of the National Council in the Resolution of the Board of Trustees then the resolution you sent is unacceptable. Please remember that we need the description of the property bought thru "documento privado" although if the resolution could be prepared authorizing you to buy for your Church "any property belonging to the Church of Jesus, it would be much easier and no descriptions whatsoever would be needed.

As regards the resolution of the Trustees of the Church of Jesus, which is the most important, perhaps it is sufficient, although the wording is not clear enough. Any way, we will have to accept it, since they are not going to
